TechMarcus

AI Customer Support Knowledge Base

Portfolio project document pack. TechMarcus is fictional; all policies and product details below are invented for demonstration and must not be treated as real commercial advice.

Company Overview

Company profile

TechMarcus is a fictional consumer electronics company selling laptops, monitors, headphones, keyboards, mice, docks, chargers, and other accessories through an online store and authorized retail partners.

Customer support channels

Customers can contact support through email, live chat, or the online support portal. Support may request an order number, proof of purchase, product model, serial number, and photographs when relevant.

Product families

Laptop models include MarcusBook Air and MarcusBook Pro. Monitor models include ViewMax 24, ViewMax 27, and ViewMax UltraWide. Audio products include MarcusBuds and MarcusHeadset.

Warranty Policy

Standard coverage

TechMarcus products include a limited 12-month warranty from the original purchase date. It covers manufacturing defects and failures that occur under normal intended use.

Battery coverage

Built-in rechargeable batteries are covered for 6 months from the original purchase date unless a product-specific warranty says otherwise.

Exclusions

Warranty coverage excludes accidental damage, liquid damage, unauthorized modifications, misuse, cosmetic damage caused by normal use, and damage caused by incompatible accessories.

Making a claim

Customers should provide proof of purchase and the product serial number. TechMarcus may request photographs, diagnostic information, or inspection of the product before approving repair or replacement.

Returns and Refunds Policy

Return window

Customers may request a return within 30 calendar days of delivery for eligible products.

Condition

Returned products should be in resalable condition with original accessories and packaging where reasonably possible. Products with significant physical damage, unauthorized modification, or evidence of misuse may be rejected.

Defective products

Products defective on arrival may qualify for replacement, repair, or refund after assessment by TechMarcus support.

Refund timing

Approved refunds are sent to the original payment method and normally take 5–10 business days after the return is approved.

Exceptions

Customized products, activated software licenses, and products marked final sale are generally non-returnable unless applicable law requires otherwise.

Shipping Policy

Order processing

Orders are normally processed within 1–2 business days after payment confirmation. Major promotions may cause additional processing time.

Standard delivery

Standard domestic delivery normally takes 3–7 business days after dispatch. Estimates are not guaranteed and may be affected by carrier delays, holidays, weather, or incorrect addresses.

Express delivery

Where available, express delivery normally takes 1–3 business days after dispatch.

Tracking and damage

Tracking information may take up to 24 hours to activate after dispatch. Customers should photograph visibly damaged packaging and contact support as soon as possible.

Payment Policy

Accepted methods

TechMarcus accepts major credit and debit cards and selected digital payment methods displayed at checkout.

Failed payments

Customers should verify their payment details or use another supported method. Support cannot bypass payment-provider security controls.

Duplicate charges

Customers who believe they were charged twice should provide the order number and transaction details so support can investigate with the payment provider.

Customer Service Policy

Support hours

Customer support operates Monday to Friday, 9:00 AM to 6:00 PM local time, excluding public holidays.

Response targets

Live chat is intended for immediate assistance during operating hours. Email and support-portal requests are normally answered within 1 business day.

Escalation

Safety concerns, suspected fraud, payment disputes, repeated product failures, and unresolved warranty claims may be escalated to a specialist team.

Information to provide

Customers should include their order number, product model, serial number where applicable, and a clear description of the issue. Screenshots and photographs can help.

MarcusBook Laptop User Manual

Power and charging

To power on a MarcusBook, press the power button once. If it does not start, connect the supplied charger and allow the battery to charge for at least 15 minutes before trying again.

Compatible charger

Use the supplied charger or a TechMarcus-approved compatible charger. Do not use visibly damaged cables or adapters.

Wi-Fi issues

Restart the laptop and router, then check whether other devices can connect to the same network.

Overheating

Use the laptop on a hard, flat surface and keep ventilation openings unobstructed. If it becomes unusually hot or repeatedly shuts down, stop using it and contact support.

MarcusHeadset User Manual

Bluetooth pairing

Place MarcusHeadset into pairing mode and select it from the device's Bluetooth list. If pairing fails, toggle Bluetooth off and on and retry.

Charging

Connect the supplied USB charging cable. A full charge normally takes approximately 2 hours.

Distorted audio

Reduce volume and check the connection. For Bluetooth issues, remove the headset from the saved device list and pair it again.

Microphone issues

Check that microphone permissions are enabled for the application. If the microphone fails across multiple applications, contact support.

Troubleshooting and Safety Guide

Device will not power on

Confirm that the device is connected to power, inspect the cable for visible damage, and allow it to charge for at least 15 minutes. If there is still no response, contact support.

Bluetooth connection failure

Restart Bluetooth, remove the saved device connection, restart both devices, and attempt pairing again.

Display problems

Check cable connections, select the correct display input, and restart the connected device. If problems persist, take photographs and contact support.

Overheating

Close unnecessary applications, place the device on a hard surface, and keep vents unobstructed. Report persistent overheating to support.

Safety escalation

Stop using the product and contact support if there is smoke, a burning smell, battery swelling, exposed electrical components, or repeated unexpected shutdowns.
